

COOPERATIVE ECONOMIC INSECT SURVEY REPORT
Glenn A. Salsbury, Survey Entomologist

Report 10, Volume 58
July 22, 2010

LESSER PEACHTREE BORER: Adults are currently active.

JAPANESE BEETLE: A vineyard near Galena in Cherokee County had light leaf feeding on 19 July.

CORN EARWORM: Averaged 0.1-0.2 per head in two fields of milo in Wilson County near Fredonia on 22 July. The fields were in the blister to soft dough stage.

SORGHUM WEBWORM: Averaged 0.2-0.3 per head in the above fields.

SORGHUM MIDGE: None were found in the above fields.

GARDEN WEBWORM: Trace numbers were found in one field of soybeans in Wilson County. No pests were found in a field in Labette County. Both fields were in the bloom stage.

EMERALD ASH BORER: None have been found on traps checked so far.
